Dear Parents/Guardians,

The health, safety and well being of staff, pupils and the wider community is the number one priority of our schools.

In recent days we have been in an impossible position in trying to balance the welfare of everyone yet at the same time complying with legal obligations.

We are currently planning and preparing work for our schools for when the imminent closures are announced. At the moment, we await further guidance from DENI regarding the situation next week. We will regularly update you as we have the information.

Thank you for your understanding and support at these difficult times.
